NEW COUNCIL TO ORGANIZE MONDAY

New Members Due to Take
Their Seats at That
Time.

ELECTION OF OFFICERS

On Monday evening the present borough council will adjourn sine die, the newly elected members take their places, and the body will be reorganized for another year. H. S. Piersol and J. Frew are the retiring incumbents, but the former resigned a month ago, when he went to Texas, so Councilman Frew is the only retiring member at this time.

A. H. Furlong and Dr. Alden O. Davis are the members to take their seats in the new council, but the latter, who has been on a trip south, will not be back in time, and will be sworn in later.

The annual election of officers will take place on Monday evening. The election of the president has created some interest, although so far as known there is no contest on.

MINE FOREMAN IS ARRESTED ON CHARGE OF SOLICITING BRIBE

On information of Antonio Robilatto, an Italian who lives in the vicinity of Belle Vernon, Harry Willis, mine foreman at the Tremont mines, was arrested on a charge of soliciting a bribe to employ. The hearing took place Thursday at the office of Justice Boylston at Uniontown, and Willis was bound over to court under \$500 bail provided by Samuel Edwards.

The prosecutor declared that he received an order for employment at the Tremont Mines from the mine superintendent, but after arrival at the mine Willis demanded that he bring him baskets of whisky and beer. In February, the prosecutor declared, Willis offered to give him a better place for \$10. Robilatto refused to accept the proposition, whereupon, he declared, Willis "looked cross at him" every time he approached and finally transferred him to a place where he could not make any money.

Several friends of the prosecutor testified in his behalf. The prosecutor was conducted by Assistant District Attorney George Patterson and the defense represented by Attorney S. J. Morrow.

Herman Case First.

The case of the Commonwealth versus Frank Herman, charged with the murder of Cal House, at Rices Landing on October 18, 1909, will be the first one to be taken up by the Greene county court, which convenes March 7.

CALIFORNIA DADS AFTER BURGESS

Some Talk of Impeachment
If He Doesn't Satisfy Them
in 30 Days.

Burgess William M. Burley of California was called before the California council last evening at their meeting, for not having monthly reports. It is said that since he has been in office Burgess Burley has made but one report, that for the first month, and that he has not turned in all the money that he took in. There was some talk of impeachment, and it is stated that he was given 30 days in which to act.

Net Revenue in Year From Four Arrests and Four Licenses \$18.75

The report of Burgess Mathiot to the borough of Smithfield in Fayette county is an interesting document, although of necessity a brief one. To the town council the burgess has submitted the following report for the councilmanic year ending March 1, 1910:

The total revenue from fines imposed and licenses granted...\$22.75
Total expenditures..... 4.00
Net revenues.....\$18.75
During the entire year in the village there were only four arrests made, and four licenses granted for shows and peddlers. The total amount of fines levied and collected reached the amount of \$18.75.

RECEPTION FOR PASTOR

Congregation Gives Farewell
to Rev. and Mrs. H. C.
Boblitt.

Members of the First Christian church, and their friends united last night in tendering Rev. and Mrs. H. C. Boblitt, the late pastor and wife, a farewell reception. There was a large number present, and the affair was a fitting recognition of the departed pastor.

Talks were made by J. M. Whitlatch, J. L. Shannon, T. J. Allen, E. C. Drum, I. N. Frye, William Jones, J. D. Berryman, and J. W. Berryman, reviewing the pleasant relations which the church has had with Rev. and Mrs. Boblitt, and of the regret felt at their departure. They bespoke for them much success in their evangelistic work, and wished for them much prosperity. A duet was rendered by Misses Jennie Hornell and Nelle Scott. The ladies of the church served a lunch at the close of the affair.

Notice to the Public

According to our court's ruling we have discontinued solicitors. All persons wishing beer, will call at the Charleroi Brewery, or send order and money by mail, and the order will be promptly delivered.

HIGH SCHOOL LITERARY SOCIETY HOLDS BEST SESSION OF THE YEAR

Illiterate Foreigners Should Not
be Allowed in the
Country.

The Charleroi High School literary society gave one of its most interesting as well as most entertaining programs for the season yesterday afternoon. The entire program was of special merit, while the debate, on the question, "Resolved, That no immigrant should be allowed to land in the United States who cannot read and write some language," was away above the average. The program follows:

Piano solo—Thomas Tippins.
Reading—Miss Mary Walters.
Recitation—Miss Mary Howard.
Piano solo—Miss Adele Heupel.
Essay—Louis Wiley.
Periodical—Miss Lois Patton.
Current Events—Lloyd Carson.
Debate—Affirmative, Henry Primas and Simon Beigel; negative, Deaton Crabb and Henry Frye.

The debate was decided in the affirmative, the judges being Misses Ruth Smalley, May Barth and Clara Beigel. The contention of the affirmative was that the illiteracy of the uneducated foreigners on our shores was detrimental to the nation, while the negative argued that an educated man was more danger to a nation than the one who could not read or write.

GOOD SHOWS BOOKED AT COYLE FOR NEXT WEEK

A twenty minute minstrel first part, introducing the two smallest men in the world, is one of the principal features, a the Coyle Theatre beginning Monday matinee, March 7, and as a laugh producer is the real article. Johnson Bros. and Johnson who offer this act are all clever singers, dancers and comedians. They dress the act excellently, and as a condensed session to a complete minstrel show comprising only three people it gives the opportunity to more than the proverbial laugh a second, and the two minutes end men manage to keep the audience in a good humor from the start to the finish.

Leslie Feathers, late of Feathers and Ames will perform phenomenal feats of agility.

That petite dancing duo, the Wallace sisters, will offer something entirely new in the art of dancing.

Frank Sanford the erratic comedian is billed to make you laugh as are also King and Mason, the eccentric kid and the soubrette in "A Bunch of Laughs" Tonight, Saturday, the management has decided to give three shows at 7, 8:30 and 9:15. Admission 10 and 15 cents.

New Fair Project.

A proposition may be submitted to the residents of Washington and Washington county it is said, in the shape of an opportunity of purchasing a large part of the old fair grounds at the county seat for the purpose of holding exhibitions there as in years gone by. About 21 acres of ground remain intact which might be used for the purpose.

Miss Jean Calvert, student at the Pennsylvania College for Women at Pittsburg, is home for visit over Sunday with her parents, Mr. and Mrs. William H. Calvert of Fallowfield avenue.

CASE OF VESTA SCHOOL TEACHER FINALLY SETTLED

Fine and Costs are Refunded to
School Marm Who Punished
Child.

After considerable time the trouble at the Vesta school has been fully settled. It will be remembered that Mrs. Sadie Dale, a patron of the Vesta school, brought suit against Miss Hattie Lang, one of the teachers, early in November on a charge of cruelty to children. Miss Lang was taken before Squire Wilson of Charleroi, who fined her \$10 and costs or \$17.90.

The teacher at once appealed the case to court which came before the grand jury February 14. There being no evidence to warrant a jury trial, Miss Lang was acquitted, and the costs thrown on the county. Squire Wilson has now refunded the fine and costs, and the case is settled. The teacher made a gallant fight for what she thought was right and won the case. Of course the Allen township school board will pay the attorney's fee. It is always to be supposed that a board of directors will stand by their teachers, and Allen directors are up to date, so that Miss Lang's case has only cost her some mental effort and anxiety.

Prompt Arrival of Fire Department With Chemicals

A small fire occurred on McKean avenue near Second street this morning at 3:45 o'clock in a house owned by Dr. Lida Grant. The fire was on the roof of the place, but owing to the quick response of the fire department with the chemical wagon, upon turning in the alarm, the damage was kept down until it was practically nothing.

Junk Dealer Alleged to Have Taken Goods From Iron Company

J. H. Balmer, the junk dealer, who was arrested at Axleton Wednesday, was given a hearing before Justice of the Peace Emery T. Graham, at Gallatin and held for court in the sum of \$300. He was unable to furnish bail and as a result, was taken to the county jail at Pittsburg, to await trial. It was charged that Balmer had in his possession about \$200 worth of material stolen from the Cosschott Iron works, this being found in his shanty boat when searched. The material it is said was sold to him by children. This however is taken care of by law and it is understood that the penalty is practically the same as receiving stolen goods.

Local Bell Telephone Office
Has More Contracts Than
Any Other Place.

Manager Frank B. Burwell of the Charleroi office of the Bell Telephone company has just received word from headquarters of the Uniontown division of which the Washington district is a part, that this office for the month of February stood first in the division in the number of contracts written. Charleroi leads in the district with 151, Washington, with 144, being second. The other towns in the district finished in the order named: Morgantown, Uniontown, Fairmont and Clarksburg.

In January Washington led the district with 205 new contracts, including Canonsburg, with Charleroi second at 187. The showing made by Charleroi is considered unusually fine and Manager Burwell and his assistants have received hearty commendation from headquarters.

During 1909 Washington headed the division list with 618 contracts as against 485 for Uniontown and 322 for Charleroi. The Charleroi office is planning to gain the lead this year and hold it.

Body.

COAL CENTER BANK CASE

The Superior Court handed down opinions in two Washington county cases Thursday.

The judgement of the lower court was affirmed in the case of the Commonwealth against Frederick Ward, convicted of conspiracy with C. H. Drum, former cashier to wreck the Coal Centre bank. They were each sentenced to pay the costs and undergo imprisonment in the penitentiary for a period of one year and six months. Drum succeeded in effecting a settlement with the bank, paying to the institution \$40,000 and sentence was lifted. Ward made several promises of settlement and later took an appeal to the higher court. He will now have to surrender himself to the sheriff of this county for the purpose of carrying into effect the sentence of the court.

PRISONER TAKES SICK IN LOCKUP

Had not Officer George McEl-downey appeared on the scene at the proper juncture a prisoner confined yesterday in the lockup might this morning have been a corpse. The man fell in a fit near the stove, and although semi-conscious, was unable to move. His clothing was in such a position that it would soon have caught fire, and he would have been roasted to death, had not Officer McEl-downey happened in. Dr. T. M. Faddis was called, and the man is apparently all right now.

A Local Arcadia.

Brownsville township, Fayette county, might well rank in the class of those communities whose "people are happy because their annals are vacant." This is not a disparaging inference, however, nor does it reflect upon the intelligence, progress or integrity of the people who inhabit that political division of our neighboring county. The annals of the Brownsville township people are blank for one thing because they are vacant in the item of State taxes. The tax assessor there reports no money at interest, no mortgages on which to pay interest, nor any notes to fall due at inopportune times. This would imply that the Brownsville township people are oppressed by neither poverty or riches, and should be in fact local Arcadians.

Social economists tell us that the ideal condition of life is where man cannot attain great wealth nor yet be oppressed by the fear of want or poverty. Under these conditions a higher degree of progress and intellectual developments it attained, in which the vital problems of life may be solved. Such a people are the ones whose annals are blank, so far as the accepted term of history goes. As a matter of fact little of the real history of any people is ever known or written. It is the unreal history, the extraordinary events, the wars, the misfortunes, the catastrophes, the aggrandizements or the exploits of the individuals, that are touted as history. What the real people, who constitute a nation, do, think or say, is rarely written. Yet after all is said and done the country or community that figures least in the history of the world's turmoil is perhaps the farthest advanced in contentment and individual happiness. Surely a community where the tax assessor ceases to trouble and notes and mortgages do not fall due, must be the ideal spot in which to live.

An Efficient Force.

In view of the councilmanic re-or-

ganization and election next Monday night when the police force and other borough officials are to be chosen for the ensuing year, the people will do well to note the work of the present force during the past year. When they do they will discover that all have been faithful and efficient servants, and are worthy to be retained in the service of the borough. This not only applies to the police force, but to the street and clerical departments of the borough. The contract departments are a matter for further consideration.

Under the able administration of Chief of Police Albright Charleroi's police force is one of the most efficient departments in the valley. About the only criticism that can be applied is that the force is too few in numbers. This, however, is not the fault of the officials, who are doing all they can under the circumstances. Under Chief Albright's administration crime and disorder are reduced to a minimum. No disorderly resorts are tolerated, and the activity displayed in preventing these places from gaining a foothold during the past year is a tribute to the efficiency of our local police. The chief is a brave, conscientious and efficient public servant who risks his life every day in the discharge of his duty, and both he and his force should be re-elected another year.

Gaining in Volume.

Although not quite up to the banner year of 1907 the coal lockages at the local lock show that river shipments are practically normal, as compared to the period just before the last financial and industrial depression. The shipments that passed through Lock No 4 are but half a million bushels behind those for the same year in 1907, and when it is considered that the aggregate is between the sixteen and seventeen million bushel mark, the slight deficit is inconsiderable.

The big gain indicated by the coal mining industry in this section is but an index to the general gains all along the line. But for the indications of serious labor differences and strikes in various parts of the country, the coming season would augur well for another record breaker in business and industrial activity. It is to be hoped, however, that the troubles that now threaten will be amicably adjusted before they become so widespread as to affect the entire country. But for this present cloud on the industrial horizon the coming year would no doubt exceed all others in activity and production.

TIME IS THE TEST

The Testimony of Charleroi People Stand the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Charleroi people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article

was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

Mrs. Charles Bromwich, 714 Washington avenue, Charleroi, Pa., says: "About two years ago I had a severe attack of kidney disease and suffered a great deal from pains in the small of my back. I was also subject to head aches and feeling of languor and although I tried a number of remedies I was not helped. Doan's Kidney Pills were finally recommended to me, and deciding to try them, I procured a box at Piper Bros. Drug Store. In a few days after using this remedy, I felt a great deal better and before

long a complete cure was effected. Doan's Kidney Pills have my highest endorsement." Statement given September 30, 1907.

CURED PERMANENTLY.

AMERICA GETTING WELL

Man has been called the sick animal. An ordinary Bengal tiger or a self-respecting armadillo does not overeat or smoke or drink to excess, or stay up all night at a director's meeting and awaken next morning with a bad taste in its mouth. Civilized man is especially likely to be sick for the things that improve life, make men ill through their abuse. If it were not for houses, there would be less consumption; but for the invention of glass, which lets in light and keeps out air, there would be less illness. Clothing, chairs, books and cooked food are all elements of civilization and of sickness.

America has a tremendous sick list. According to Professor Irving Fisher's recent report on national vitality, there are in the United States at all times three million people actually sick. If you try to picture three million sick beds, side by side stretching from New York City to Nevada you may get an idea of the extent of this illness. Our American sickness costs us \$1,500,000,000 a year, equal to about twice the revenue of the national Government. This estimate does not include the loss of efficiency of people who are not ill, but just tired, fagged, "below par."

The next great reform in America is to "get well." As a sick nation we have done fairly; we could double and treble and quadruple our work if we wiped out sickness. It can be done; in fact it is being done. We have obliterated yellow fever and scurvy and almost ended smallpox. In another generation any city which has a typhoid epidemic will be held up to the scorn of the nation. Today there are five hundred thousand people continually sick from tuberculosis, an easily preventable disease; in another generation we shall have tuberculosis well under control. Hundreds of thousands of people in the South are suffering continually from the hookworm disease, popularly called the "lazy germ." This can easily be completely eradicated, and Mr. Rockefeller has just contributed a million dollars to start the work. According to Dr. Howard there are three million cases of malaria every year. A little quinine and a vigorous war on mosquitoes will make this an unknown disease.

We are entering upon a new era in America. National, State and municipal boards of hygiene, better sanitary laws, associations of doctors, philanthropic and other organizations, bureaus of medical research, improved hospitals and sanatoria, better trained doctors and nurses are rapidly improving the health of the nation. The people themselves are doing still more. They no longer believe religiously in bad-tasting and worse-acting drugs, but are learning that pure air, pure water, pure food and war on flies, mosquitoes and rats are half the battle, and freedom from worry and anger the other half. We are wisely spending a great deal of thought on the conservation of our natural resources; we are just as wisely devoting our spare effort and thought to conserving our vital resources. By lengthening and strengthening our lives, we can create a new and higher civilization in this tired old world—Success Magazine.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages—catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have much to say in curative powers that they offer One Hundred Dollars for any cure that it fails to cure. Send for list of testimonials.

LIMERICK ATTRACTING CONSIDERABLE INTEREST

The People's Store at 536 Fallowfield avenue has offered a credit of \$5.00 for the best limerick to rhyme with a stanza which was published in the People's store "ad" in yesterday's Mail. The limerick has to be in by March 25 to entitle anyone to a chance on the credit. The affair has created considerable attention and doubtless will be the signal for the exhibition of much Charleroi talent.

NEW COUNCIL TO ORGANIZE MONDAY

New Members Due to Take
Their Seats at That
Time.

ELECTION OF OFFICERS

On Monday evening the present borough council will adjourn sine die, the newly elected members take their places, and the body will be reorganized for another year. H. S. Piersol and J. Frew are the retiring incumbents, but the former resigned a month ago, when he went to Texas, so Councilman Frew is the only retiring member at this time.

A. H. Furlong and Dr. Alden O. Davis are the members to take their seats in the new council, but the latter, who has been on a trip south, will not be back in time, and will be sworn in later.

The annual election of officers will take place on Monday evening. The election of the president has created some interest, although so far as known there is no contest on.

MINE FOREMAN IS ARRESTED ON CHARGE OF SOLICITING BRIBE

On information of Antonio Robilatto, an Italian who lives in the vicinity of Belle Vernon, Harry Willis, mine foreman at the Tremont mines, was arrested on a charge of soliciting a bribe to employ. The hearing took place Thursday at the office of Justice Boylston at Uniontown, and Willis was bound over to court under \$500 bail provided by Samuel Edwards.

The prosecutor declared that he received an order for employment at the Tremont Mines from the mine superintendent, but after arrival at the mine Willis demanded that he bring him baskets of whisky and beer. In February, the prosecutor declared, Willis offered to give him a better place for \$10. Robilatto refused to accept the proposition, whereupon he declared, Willis "looked cross at him" every time he approached and finally transferred him to a place where he could not make any money.

Several friends of the prosecutor testified in his behalf. The prosecution was conducted by Assistant District Attorney George Patterson and the defense represented by Attorney S. J. Morrow.

Herman Case First.

The case of the Commonwealth versus Frank Herman, charged with the murder of Cal House, at Rices Landing on October 18, 1909, will be the first one to be taken up by the Greene county court, which convenes March 7.

CALIFORNIA DADS AFTER BURGESS

Some Talk of Impeachment
If He Doesn't Satisfy Them
in 30 Days.

Burgess William M. Burley of California was called before the California council last evening at their meeting, for not having monthly reports. It is said that since he has been in office Burgess Burley has made but one report, that for the first month, and that he has not turned in all the money that he took in. There was some talk of impeachment, and it is stated that he was given 30 days in which to act.

Net Revenue in Year From Four Arrests and Four Licenses \$18.75

The report of Burgess Mathiot to the borough of Smithfield in Fayette county is an interesting document, although of necessity a brief one. To the town council the burgess has submitted the following report for the councilmanic year ending March 1, 1910:

The total revenue from fines imposed and licenses granted...\$22.75
Total expenditures..... 4.00

Net revenues.....\$18.75
During the entire year in the village there were only four arrests made, and four licenses granted for shows and peddlers. The total amount of fines levied and collected reached the amount of \$18.75.

RECEPTION FOR PASTOR

Congregation Gives Farewell
to Rev. and Mrs. H. C.
Boblitt.

Members of the First Christian church, and their friends united last night in tendering Rev. and Mrs. H. C. Boblitt, the late pastor and wife, a farewell reception. There was a large number present, and the affair was a fitting recognition of the regretted departure of leaders like Rev. and Mrs. Boblitt have been.

Talks were made by J. M. Whitlatch, J. L. Shannon, T. J. Allen, E. C. Drum, I. N. Frye, William Jones, J. D. Berryman, and J. W. Berryman, reviewing the pleasant relations which the church has had with Rev. and Mrs. Boblitt, and of the regret felt at their departure. They bespoke for them much success in their evangelistic work, and wished for them much prosperity. A duet was rendered by Misses Jennie Hornell and Nelle Scott. The ladies of the church served a lunch at the close of the affair.

HIGH SCHOOL LITERARY SOCIETY HOLDS BEST SESSION OF THE YEAR

Illiterate Foreigners Should Not
be Allowed in the
Country.

The Charleroi High School literary society gave one of its most interesting as well as most entertaining programs for the season yesterday afternoon. The entire program was of special merit, while the debate, on the question, "Resolved, That no immigrant should be allowed to land in the United States who cannot read and write some language," was away above the average. The program follows:

Piano solo—Thomas Tippins.
Reading—Miss Mary Walters.
Recitation—Miss Mary Howard.
Piano solo—Miss Adele Heupel.
Essay—Louis Wiley.
Periodical—Miss Lois Patton.
Current Events—Moyd Carson.
Debate—Affirmative, Henry Primas and Simon Beigel; negative, Deaton Crabb and Henry Fre.

The debate was decided in the affirmative, the judges being Misses Ruth Smalley, May Barth and Clara Beigel. The contention of the affirmative was that the illiteracy of the uneducated foreigners on our shores was detrimental to the nation, while the negative argued that an educated man was more dangerous to a nation than the one who could not read or write.

GOOD SHOWS BOOKED AT COYLE FOR NEXT WEEK

A twenty minute minstrel first part, introducing the two smallest end men in the world, is one of the principal features, a the Coyle Theatre beginning Monday matinee, March 7, and as a laugh producer is the real article. Johnson Bros. and Johnson who offer this act are all clever singers, dancers and comedians. They dress the act excellently, and as a condensed session to a complete minstrel show comprising only three people it gives the opportunity to more than the proverbial laugh a second, and the two diminutive end men manage to keep the audience in a good humor from the start to the finish.

Leslie Feathers, late of Feathers and Ames will perform phenomenal feats of agility. That petite dancing duo, the Wallace sisters, will offer something entirely new in the art of dancing. Frank Sanford the erratic comedian is billed to make you laugh as are also King and Masol, the eccentric kid and the soubrette in "A Bunch of Laughs." Tonight, Saturday, the management has decided to give three shows at 7, 8:30 and 9:15. Admission 10 and 15 cents.

New Fair Project.

A proposition may be submitted to the residents of Washington and Washington county it is said, in the shape of an opportunity of purchasing a large part of the old fair grounds at the county seat for the purpose of holding exhibitions there as in years gone by. About 21 acres of ground remain intact which might be used for the purpose.

Miss Jean Calvert, a student at the Pennsylvania College for Women at Pittsburg, is home for a visit over Sunday with her parents, Mr. and Mrs. William H. Calvert, of Fallowfield avenue.

CASE OF VESTA SCHOOL TEACHER FINALLY SETTLED

Fine and Costs are Refunded to
School Marm Who Punished
Child.

After considerable time the trouble at the Vesta school has been fully settled. It will be remembered that Mrs. Sadie Dale, a patron of the Vesta school, brought suit against Miss Hattie Lang, one of the teachers, early in November on a charge of cruelty to children. Miss Lang was taken before Squire Wilson of Charleroi, who fined her \$10 and costs or \$17.90.

The teacher at once appealed the case to court which came before the grand jury February 14. There being no evidence to warrant a jury trial, Miss Lang was acquitted, and the costs thrown on the county. Squire Wilson has now refunded the fine and costs, and the case is settled. The teacher made a gallant fight for what she thought was right and won the case. Of course the Allen township school board will pay the attorney's fee. It is always to be supposed that a board of directors will stand by their teachers, and Allen directors are up to date, so that Miss Lang's case has only cost her some mental effort and anxiety.

A small fire occurred on McKean avenue near Second street this morning at 3:45 o'clock in a house owned by Dr. Lida Grant. Junk Dealer Alleged to Have Taken Goods From Iron Company

J. H. Balmer, the junk dealer, who was arrested at Axleton Wednesday, was given a hearing before Justice of the Peace Emory T. Graham, at Gallatin and held for court in the sum of \$300. He was unable to furnish bail and as a result, was taken to the county jail at Pittsburg, to await trial. It was charged that Balmer had in his possession about \$200 worth of material stolen from the Cossboc-ton Iron works, this being found in his shanty boat when searched. The material it is said was sold to him by children. This however is taken care of by law and it is understood that the penalty is practically the same as receiving stolen goods.

Local Bell Telephone Office
Has More Contracts Than
Any Other Place.

Manager Frank B. Burwell of the Charleroi office of the Bell Telephone company has just received word from headquarters of the Uniontown division of which the Washington district is a part, that this office for the month of February stood first in the division in the number of contracts written. Charleroi leads in the district with 151, Washington, with 144, being second. The other towns in the district finished in the order named: Morgantown, Uniontown, Fairmont and Clarksburg.

In January Washington led the district with 205 new contracts, including Canonsburg, with Charleroi second at 187. The showing made by Charleroi is considered unusually fine and Manager Burwell and his assistants have received hearty commendation from headquarters.

During 1909 Washington headed the division list with 618 contracts as against 435 for Uniontown and 322 for Charleroi. The Charleroi office is planning to gain the lead this year and hold it.

COAL CENTER BANK CASE

The Superior Court handed down opinions in two Washington county cases Thursday.

The judgement of the lower court was affirmed in the case of the Commonwealth against Frederick Ward, convicted of conspiracy with C. H. Drum, former cashier to wreck the Coal Centre bank. They were each sentenced to pay the costs and undergo imprisonment in the penitentiary for a period of one year and six months. Drum succeeded in effecting a settlement with the bank, paying to the institution \$40,000 and sentence was lifted. Ward made several promises of settlement and later took an appeal to the higher court. He will now have to surrender himself to the sheriff of this county for the purpose of carrying into effect the sentence of the court.

PRISONER TAKES SICK IN LOCKUP

Had not Officer George McEl-downey appeared on the scene at the proper juncture a prisoner confined yesterday in the lockup might this morning have been a corpse. The man fell in a fit near the stove, and although semi-conscious, was unable to move. His clothing was in such a position that it would soon have caught fire, and he would have been roasted to death, had not Officer McEl-downey happened in. Dr. T. M. Faddis was called, and the man is apparently all right now.

A Local Arcadia.

Brownsville township, Fayette county, might well rank in the class of those communities whose "people are happy because their annals are vacant." This is not a disparaging inference, however, nor does it reflect upon the intelligence, progress or integrity of the people who inhabit that political division of our neighboring county. The annals of the Brownsville township people are blank for one thing because they are vacant in the item of State taxes. The tax assessor there reports no money at interest, no mortgages on which to pay interest, nor any notes to fall due at inopportune times. This would imply that the Brownsville township people are oppressed by neither poverty or riches, and should be in fact local Arcadians.

Social economists tell us that the ideal condition of life is where man cannot attain great wealth nor yet be oppressed by the fear of want or poverty. Under these conditions a higher degree of progress and intellectual developments it attained, in which the vital problems of life may be solved. Such a people are the ones whose annals are blank, so far as the accepted term of history goes. As a matter of fact little of the real history of any people is ever known or written. It is the unreal history, the extraordinary events, the wars, the misfortunes, the catastrophes, the aggrandizements or the exploits of the individuals, that are touted as history. What the real people, who constitute a nation, do, think or say, is rarely written. Yet after all is said and done the country or community that figures least in the history of the world's turmoil is perhaps the farthest advanced in contentment and individual happiness. Surely a community where the tax assessor ceases to trouble and notes and mortgages do not fall due, must be the ideal spot in which to live.

An Efficient Force.

In view of the councilmanic re-

organization and election next Monday night when the police force and other borough officials are to be chosen for the ensuing year, the people will do well to note the work of the present force during the past year. When they do they will discover that all have been faithful and efficient servants, and are worthy to be retained in the service of the borough. This not only applies to the police force, but to the street and clerical departments of the borough. The contract departments are a matter for further consideration.

Under the able administration of Chief of Police Albright Charleroi's police force is one of the most efficient departments in the valley. About the only criticism that can be applied is that the force is too few in numbers. This, however, is not the fault of the officials, who are doing all they can under the circumstances. Under Chief Albright's administration crime and disorder are reduced to a minimum. No disorderly resorts are tolerated, and the activity displayed is preventing these places from gaining a foothold during the past year is a tribute to the efficiency of our local police. The chief is a brave, conscientious and efficient public servant who risks his life every day in the discharge of his duty, and both he and his force should be re-elected another year.

Gaining in Volume.

Although not quite up to the banner year of 1907 the coal lockages at the local lock show that river shipments are practically normal, as compared to the period just before the last financial and industrial depression. The shipments that passed through Lock No 4 are but half a million bushels behind those for the same year in 1907, and when it is considered that the aggregate is between the sixteen and seventeen million bushel mark, the slight deficit is inconsiderable.

The big gain indicated by the coal mining industry in this section is an index to the general gains all along the line. But for the indications of serious labor differences and strikes in various parts of the country, the coming season would augur well for another record breaker in business and industrial activity. It is to be hoped, however, that the troubles that now threaten will be amicably adjusted before they become so widespread as to affect the entire country. But for this present cloud on the industrial horizon the coming year would no doubt exceed all others in activity and production.

TIME IS THE TEST

The Testimony of Charleroi People Stand the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Charleroi people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article

was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

Mrs. Charles Bromwich, 714 Washington avenue, Charleroi, Pa., says: "About two years ago I had a severe attack of kidney disease and suffered a great deal from pains in the small of my back. I was also subject to head aches and feeling of languor and although I tried a number of remedies I was not helped. Doan's Kidney Pills were finally recommended to me, and deciding to try them, I procured a box at Piper Bros. Drug Store. In a few days after using this remedy, I felt a great deal better and before

long a complete cure was effected. Doan's Kidney Pills have my highest endorsement." Statement given September 30, 1907.

CURED PERMANENTLY.

On November 6, 1909, Mrs. Bromwich said: "I can recommend Doan's Kidney Pills as highly today as when I gave a public statement in their favor two years ago. The cure this remedy effected has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

AMERICA GETTING WELL

Man has been called the sick animal. An ordinary Bengal tiger or a self-respecting armadillo does not overeat or smoke or drink to excess, or stay up all night at a director's meeting and awaken next morning with a bad taste in its mouth. Civilized man is especially likely to be sick for the things that improve life, make men ill through their abuse. If it were not for houses, there would be less consumption; but for the invention of glass, which lets in light and keeps out air, there would be less illness. Clothing, chairs, books and cooked food are all elements of civilization and of sickness.

America has a tremendous sick list. According to Professor Irving Fisher's recent report on national vitality, there are in the United States at all times three million people actually sick. If you try to picture three million sick beds, side by side stretching from New York City to Nevada you may get an idea of the extent of this sickness. Our American sickness costs us \$1,500,000,000 a year, equal to about twice the revenue of the national Government. This estimate does not include the loss of efficiency of people who are not ill, but just tired, fagged, "below par."

The next great reform in America is to "get well." As a sick nation we have done fairly; we could double and treble and quadruple our work if we wiped out sickness. It can be done; in fact it is being done. We have obliterated yellow fever and scurvy and almost ended smallpox. In another generation any city which has a typhoid epidemic will be held up to the scorn of the nation. Today there are five hundred thousand people continually sick from tuberculosis, an easily preventable disease; in another generation we shall have tuberculosis well under control. Hundreds of thousands of people in the South are suffering continually from the hookworm disease, popularly called the "lazy germ." This can easily be completely eradicated, and Mr. Rockefeller has just contributed a million dollars to start the work. According to Dr. Howard there are three million cases of malaria every year. A little quinine and a vigorous war on mosquitoes will make this an unknown disease.

We are entering upon a new era in America. National, State and municipal boards of hygiene, better sanitary laws, associations of doctors, philanthropic and other organizations, bureaus of medical research, improved hospitals and sanitariums, better trained doctors and nurses are rapidly improving the health of the nation. The people themselves are doing still more. They no longer believe religiously in bad-tasting and worse-acting drugs, but are learning that pure air, pure water, pure food and war on flies, mosquitoes and rats are half the battle, and freedom from worry and anger the other half.

We are wisely spending a great deal of thought on the conservation of our natural resources; we are just as wisely devoting our spare effort and thought to conserving our vital resources. By lengthening and strengthening our lives, we can create a new and higher civilization in this tired old world—Success Magazine.

MEN'S SHOES

Shoe Whims

Almost every man has shoe whims of his own.
Nothing irritates him more than being urged to buy a totally different kind of shoe from those he wants, simply because the Shoe Store is question doesn't carry his favorite kind.
We can please nearly every man with Shoes.
Not all—that would be impossible, but, at least, you won't be talked into bad or unsuitable shoes.

The Choice of Good Shoes

here is both exceptionally and surprisingly large.
Take for example, our \$3.00 or \$4.00 shoes; they are better, by a dollar or more, than any other shoes you can find at the price.
The Spring Styles await your coming.

LIMERICK ATTRACTING CONSIDERABLE INTEREST

The People's Store at 536 Fallowfield avenue has offered a credit of \$5.00 for the best limerick to rhyme with a stanza which was published in the People's store "ad" in yesterday's Mail. The limerick has to be in by March 25 to entitle anyone to a chance on the credit. The affair has created considerable attention and doubtless will be the signal for the exhibition of much Charleroi talent.
